The life and experiences I had are reflected in the designs. Trying to find a way of sharing my vision, my reality; my proximity to technology with an upbringing in the jungle, through objects, I seek to rebuild and narrow the gap between nature and the technological, industrialized and sophisticated present until creating something that cannot be defined one way or the other. Juxtaposing natural and artificial materials, organic and geometric shapes.

EXHIBITIONS:

Group exhibition, Ceramics @Rufino Tamayo. Oaxaca, Mexico (2020)
